

Commvault® Professional Foundations self-paced eLearning

Description

Learn essential and advanced skills for configuring and administering Commvault® software to protect data in virtual and physical infrastructures.

The core components for this self-paced training include:

- **Commvault® Professional Foundations**
This training uses the Commvault Command Center™ to learn about:
 - CommCell® Environment
 - Storage Configuration
 - Security
 - Servers and Features
 - Data Management
 - Monitoring

Prerequisites

It is recommended that you watch the Welcome to Commvault® video. This course is included at no additional cost, as a part of the Commvault Professional Bundle, and is recommended to be completed prior to attending the course.

Certification

Completion of this course helps you prepare for the **Commvault® Professional Foundations Exam Certification**. The **Commvault Certified Professional V11 2020** is included free of charge as a part of the **Commvault® Professional Foundations self-paced eLearning** instructor and virtual instructor-led course registration.
